Our 1937 Dahlia Introduction . . . "MISS ENGLEWOOD"

We could say a great deal about Miss Englewood and of its many merits, but we will limit ourselves to say, besides the description, that it is to the red class all that Jane Cowl is in the Autumn class. A healthy and vigorous growing plant, free flowering and a uniform grower. It won *Certificates of Merit* at Storrs, Conn. and at East Lansing, Mich. When shown at the New York Florists' Club it received a vote of thanks.

It is an Informal Decorative of spectrum red and carmine. Back of center petals buff yellow showing plainly at center and upper side of petals. Stems 9 inches, heavy to medium, flowers on side facing side. Size of flowers, 7 1/4-12 inches, depth 2 1/2-4 1/4 inches, height 5 feet.
